Rodin® SOFT RELINE

Compatible with **ALL** 3D, PMMA & Traditional Denture Acrylic

Rodin® Soft Reline features a unique silicone-based formulation that improves the fit and enhances the performance of immediate, removable and partial dentures. Tailored for superior bonding and tear strength, the ideal soft reline solution.

Features & Benefits

- Exceptional Bond & Tear Resistance
- Reduced Delamination
- Ease of Workflow
- Superior Performance
- Esthetic and Patient Comfort

Order # **24006** Soft Reliner Kit

SPECTRUM DAY MONTREAL

AT A GLANCE

Exhibit Hall Opens at 8:30am

TECHNICAL PROGRAM - Each hour lecture = 1 CE Credit		ST-LAURENT 3-4
Time	Title/Outline	Speaker
9:00am - 10:00am	Full Mouth Planning Utilizing Katana YML Zirconia Workflow (French)	Jean Chiha <i>MDT</i>
10:00am - 11:00am	Let's talk aesthetics! Ultra-thin zirconia veneers with Prettau® Skin® – Clinical and lab procedure	Kaveh Shams <i>DT</i>
11:00am - 11:30am	AM Break in ST-LAURENT 2	
11:30am - 12:45pm	Progrès et innovations dans le domaine de la céramique dentaire (French)	Christian Ferrari <i>MDT</i>
12:45pm - 1:30pm	Lunch Break in ST-LAURENT 2	
1:30pm - 2:30pm	Next Level Digital Smile Innovation Utilisation of 3D Facial Imaging for Esthetic Restorations	Alex Chabachevitch <i>RDT</i>
2:30pm - 3:30pm	Impression 3D en laboratoire : Améliorer les résultats et réduire les échecs (French)	André Gaul <i>TPAD</i>
3:30pm - 4:00pm	PM Break in ST-LAURENT 2	
4:00pm - 5:00pm	Implant Scan bodies 101: Featuring the “Dynamic” approach to implant scanning from singles to full arch	Mark Chan <i>DD</i>
5:00pm	Wine O'Clock in ST-LAURENT 2 	

CLINICAL / DENTURIST PROGRAM - Each hour lecture = 1 CE Credit		ST-LAURENT 5
Time	Title/Outline	Speaker
10:00am - 11:00am	Digital Dentures: Revolutionizing the Denturist Market	Alex Chabachevitch <i>RDT</i>
11:00am - 11:30am	AM Break in ST-LAURENT 2	
11:30am - 12:30pm	Complications in Implant Dentistry - Case Discussions	Dr. Waji Khan <i>BSc, DDS, MBA, MEd</i>
12:30pm - 1:30pm	Lunch Break in ST-LAURENT 2	
1:30pm - 2:30pm	Next Generation Printables with Rodin Resins: Featuring Rodin Sculpture and Rodin denture base	Mark Chan <i>DD</i>
2:30pm - 3:30pm	The Digital Workflow for Denture Creation: From Patient Diagnostics to Design and Manufacturing	Kaveh Shams <i>DT</i>
3:30pm - 4:00pm	PM Break in ST-LAURENT 2	
4:00pm - 5:00pm	Starting Me Over – Motivation is an Inside Job	Ettore Palmeri <i>MBA, AGDM, B.Ed., BA</i>
5:00pm	Wine O'Clock in ST-LAURENT 2

Jean Chiha
MDT
(French)

kuraray

9:00am - 10:00am

Room: ST-LAURENT 3-4

Full Mouth Planning Utilizing Katana YML Zirconia Workflow

Mr. Chiha will share important start-to-finish tips and tactics for KATANA Zirconia restorations using the natural lifelike Esthetic Colorant (specifically designed for KATANA Zirconia Multi Layered Series) and CZR FC Paste Stain for the reproduction of a wide variety of esthetic cases. Attendees will learn detailed steps for valuable techniques with these allied materials, leading to successful esthetic outcomes. (Katana zirconia choice, Esthetic Colorant Liquid, Proper Sintering, Finishing w/ FC Paste Stains, and Clinical Cases)

Jean Chiha is the owner of North Star Dental Laboratory and Milling Center, Santa Ana, CA and has served as the former president of the DLAOC from 2013 to 2016. He is a 1985 graduate of Institute Dento Technic, a private dental technology school in France. Chiha lectures internationally on dental communication, case planning, and best practices for case completion. Jean also writes and is featured periodically in technical articles for dental magazines globally.

Kaveh Shams

Zirkonzahn
Human Zirconium Technology

10:00am - 11:00am

Room: ST-LAURENT 3-4

Let's talk aesthetics! Ultra-thin zirconia veneers with Prettau® Skin® – Clinical and lab procedure

During the lecture, Kaveh Shams, DT, will explain a new working procedure for creating ultra-thin zirconia veneers (0.2 mm) with minimal invasive tooth preparation. From precise tooth colour determination to final application, through micro-layering and production of individual preparation guides, the lecturer will illustrate the step-by-step procedure based on real patient cases, considering both clinical and laboratory work phases.

Kaveh Shams graduated as a Dental Technician from Lambeth College – in London, UK, in 2010. Since then, he has worked in multiple dental laboratories in London and Toronto. In recent years, his passion for digital dentistry has led him to take responsibility as a CAD-CAM Specialist supporting and coaching dental community members across Canada. He continues serving the dental community as Zirkonzahn's ambassador and branch manager.

AM Break

**11:00am-11:30am

11:30am - 12:45pm

Room: ST-LAURENT 3-4

Progrès et innovations dans le domaine de la céramique dentaire

Le monde professionnel évolue rapidement.

Nos laboratoires présentent un visage bien différent de ceux que j'ai pu connaître à mes débuts.

L'apparition du numérique a considérablement modifié la vision globale de nos réhabilitations en porcelaine.

Jusqu'à présent, obtenir des couronnes esthétiques en céramique traditionnelles, avec des faibles épaisseurs de recouvrement, semblaient être un défi très souvent voué à l'échec.

Depuis environ 7 ans, de nouvelles porcelaines ont vu le jour. Elles se présentent sous forme de pâtes, et non plus de poudres.

De granulométrie extrêmement fine, ces porcelaines en pâte ont un fort pouvoir couvrant, ce qui permet, même à très faible épaisseur, d'apporter une teinte, une saturation, et une profondeur avec un résultat esthétique très satisfaisant.

Durant ma conférence, en illustrant quelques cas cliniques, je vais vous présenter mes façons d'aborder au quotidien ces porcelaines en pâte, les différentes applications, et les nombreux bénéfices. Je vais vous présenter également le nouveau logiciel CADback et ses avantages.

Christian Ferrari *Céramiste dentaire, leader d'opinion, conférencier reconnu internationalement, Christian Ferrari est un prothésiste dentaire venant de France tout récemment arrivé au Québec. Après avoir passé dix années en Suisse auprès de céramistes de renom, il ouvre son premier laboratoire en France. Très rapidement reconnu pour son sens et sa maîtrise de l'esthétique, il fût approché par une maison internationale et apporta sa contribution au développement des lignes de céramiques, dont sa propre porcelaine, qu'il présenta à travers le monde. Reconnu également pour ses qualités de photographe, il contribua à l'élaboration de nombreux ouvrages. En 2008, il créa sa propre Académie dentaire, où il forma de nombreux céramistes venant de tous pays. Sa passion, mais aussi sa curiosité, le pousse aujourd'hui à explorer le potentiel des nouvelles générations de céramiques en pâte... « Ceramotion One Touch »*

Lunch Break

12:45pm-1:30pm
ST-LAURENT 2

Alex Chabachevitch

Impression 3D en laboratoire : Améliorer les résultats et réduire les échecs

Cette conférence technique vise à sensibiliser les utilisateurs d'imprimantes 3D à reconnaître les types d'échecs d'impression les plus fréquents et à comprendre leur cause afin de les éviter. Deuxièmement, la conférence aborde la compréhension du comportement de la résine 3D et l'importance vitale d'un post-durcissement adéquat pour obtenir des pièces dimensionnellement stables. Enfin, les participants découvriront certains des paramètres les plus obscurs de leur logiciel d'imprimante, ce qui peut aider à produire des pièces plus précises.

André Gaul Diplômé 2018 de la technique de prothèses dentaire du C.E.M. Présentement directeur des technologies dentaires et spécialiste en impression 3D chez DenPlus Inc.
