Location: Hiossen Implant Canada - Toronto

25 Royal Crest Ct Unit 205, Markham, ON L3R 9X4

7 CE Credits | AGD Subject Code: 690

\$1,899 + HST

- Are your patients suffering with loose dentures?
- Scared of AOX, but wanting to get into full arch therapy?
- Extracting teeth and WAITING?? Perform IMMEDIATE implants!
- Implant LOCATOR OVERDENTURES is the place to START!

About the Course

Whether it is an edentulous patient that is suffering with loose dentures and sore spots, or a patient that is in a position where they have to lose some or all of their teeth, implant locator overdentures can be a very cost-effective and stable solution that can help improve their overall stability and function. This program will focus on both surgical and prosthetic planning and execution for both the already edentulous patient, and immediate implants for the patient requiring tooth extractions. Participants will practice flap design, implant placement, locator insertion and torquing along with full site suturing hands-on using simulated models. They will also perform the prosthetic component including denture preparation and pickup of locator housings ensuring an optimal result for the patient.
